ANANDA KENNY ESQIEL BISARATUA

Cipayung, East Jakarta · +62 877-2005-2003 · malaukendui@gmail.com · github.com/malaukendui-a11y

PROFESSIONAL SUMMARY

Information Systems graduate from Universitas Gunadarma (GPA 3.43, January 2026) with QA Tester experience on Kopra by Mandiri (±250 test cases, ±20 defects in JIRA), hands-on experience building web applications (React, Supabase) AI-assisted with thorough testing, and leading digital projects from planning (SRS, PRD, roadmap) to UI/UX design. Analytical, used to documentation and testing, quick to pick up new tools. Open to QA/testing, web development, IT support, analyst, product/project, or management trainee roles.

EDUCATION

Universitas Gunadarma — Bachelor of Information Systems (S1)
2021 – January 2026 · GPA 3.43/4.00
Undergraduate research paper (2024): "Big Data Analysis for Detecting Patterns and Trends in Cryptocurrency Price Movements (A Case Study of the Altcoin Market)" — analysis workflow & interpretation of regression, K-Means, Random Forest

PROFESSIONAL EXPERIENCE

QA Tester (Manual Testing) — Kopra by Mandiri, Bank Mandiri
Internship / project contract via PT Bahtera Pesat Lintasbuana · August 2026 (1 month)

- Executed ±250 UAT and regression test cases on Kopra by Mandiri (wholesale banking platform)
- Reported ±20 defects in JIRA with reproduction steps and severity, tracked to closure (±90% resolved pre-release)
- Designed and documented structured test cases and test reports in JIRA for developers and QA

PROJECTS

PintuKos — Boarding House & Rental Finance App — Product Owner, QA & Developer (AI-assisted)
September 2026 – present
Mobile-first web app for a family-run boarding house and rental business: automatic invoicing, payments with photo proof, WhatsApp billing, PDF/Excel reports, book closing, audit log; 3 roles (Owner, Admin, Viewer)

- Authored the PRD, 19-screen UI, database schema (13 migrations), and a 10-phase roadmap; built with React, TypeScript, Tailwind CSS, and Supabase (PostgreSQL, Auth, Storage, Row Level Security)
- Tested thoroughly: 2,000+ unit tests (Vitest, React Testing Library), ±30 Playwright E2E tests + axe-core audits (WCAG 2.2 AA) on GitHub Actions, SQL database tests (693 checks), 85-step UAT

Malau Batak Clan Organization Website — Project Manager
September 2026 – present · UI/UX design stage

- Managing a public community and genealogy (tarombo) website for the Malau Pase clan with 1 data analyst: 6-page scope, product decisions, 22-page SRS and PRD; UI/UX in Google Stitch and Figma

Journal Trading X1 — Prototype (Personal Project)
August 2026 – present · github.com/malaukendui-a11y/Trading-Journal-X1
Trading discipline dashboard (HTML, CSS, JavaScript, Supabase): risk calculator, journal, checklist; in internal QA

Kos & Kontrakan Kenny — Promotion & Booking Landing Page — Product & Business Strategy
October 2026 – present · PRD and Design.md stage
Phased feature blueprint (MVP → growth → scale), WhatsApp lead conversion, competitive research, PRD & Design.md

SKILLS

- **Testing & QA:** Manual testing, UAT, regression testing, test case design, JIRA, Vitest, Playwright
- **Web Development:** HTML, CSS, JavaScript, React, TypeScript and Tailwind CSS (basic), Supabase, Git/GitHub, Vercel, Netlify
- **Product & Project:** SRS/PRD writing, roadmap planning, team coordination, Figma, Google Stitch
- **Analysis & Office:** Competitive research, interpretation of data analysis (regression, clustering), Microsoft Office
- **AI-Assisted Development:** Claude Code, ChatGPT, prompt engineering, agentic workflow, output verification

TRAINING & CERTIFICATIONS

- RevoU Coding Camp — Intro to Software Engineering (1 week), Sep 2026 · mini project: finance web app
- Gunadarma e-certificates (2022–26): Designing Software, Go-Lang for Beginner, Fundamental Web/Desktop Programming
